

INFORMATION

This section is aimed “to guide” the reader toward websites which presenting whether a certain interest or links permitting to try to determine the world in which some people decide “to confine” us !

The world changes very fast and the means of communication including internet as well as the access to the information can influence us, but what for?

The “seizure” on the brains and the supervision of these can drive us to many directions diametrically opposite to those of our convictions the most specific, personal, original, blasting our traditional values...!

Example :

On December, 1991, when I was guest Professor at the **University of Quebec in Rimouski (UQAR)** Canada, I have had an “interview” about of the Future of Quebec and Canada and their future relations ships as part of the Agreements on free-trades between the USA, Canada and Mexico.

To the different questions asked at the time, I have answered without ambiguousness taking in consideration the situation of 1991 and not being native from North America, but based on the observed “**facts**” in the Economical and Political field as much as in the Financial field...

The Reader will be able to realize, by himself by consulting the Website :

from the **Observatoire Mondial Géostratégique S.A.**, and particularly through the link :

REPORTS ON 2010

What was announced at the time of this “interview” on December, 1991, published in the **UQAR’s** journal on January 1992, comes true now in front of one’s eye! **20 years later...!**

No man is “Prophet” in his own Country... and “enjoy your reading”...!

Sincerely,

On April, 28th, 2010
