

THE WORD OF the SUPPORT COMMITTEE HAS ELODIE LAMBINET FOR YEAR 2012

Having tried to interest both in a sad and pathetic history concerning a legal case, about a father and about his daughter, this year of 2012 was one year marked by NO result !

This kind of affair interests nobody anymore and present no interest in the multitude of problems with which is confronted the public !

The Association of Documentation for Research and Design Engineers (A.D.R.D.E.), Web site : <http://www.adire.us/> , in its Statutes : <http://www.adire.us/statuts.html> , mention, please, that it defends the interests of the Researchers whatever they are ! (Article 3).

We "integrated that there is a total incomprehension and an impermeability between us, small people, who think of being right, and the Justice and the Government who think only of themselves, full of to be able to them and of their concern of domination.

The diverse steps begun for years, which the Petition of 10.000 signatures (having met individually more than 50.000 persons on the ground), ended in nothing, except maybe to make sensitive the voters on order of things, of which the functioning of some politics.

These last totally cut of the people and the reality do not have to wonder any more to know "the cold shower" during electoral terms ! The "social networks" play completely their role, before, during, and after these electoral terms ! A word to the wise is enough !

Thus, « the manipulators » would not be « treated » without their knowledge, and so we get rid « smoothly », noiselessly, of « parasites » and of « incompetents » ; obviously it takes time ..., but we arrive there ... !

It is "very exhilarating" at the approach of the next electoral terms !

Happy New Year 2013 to all !

That this New Year of 2013 allows you to open eyes, ears, and neurons as for our future ... !
