

ONE YEAR, YET !

There is now one year, since **July 2008**, several persons of the valley of Ossau in Béarn – France -, proposed the création of a **Comitee of Support to Elodie LAMBINET**, my daughter, with the goal to make known to everybody, the familial, scholar and sentimental situation which she is and the no-existent context of links between daughter and father and conversely (see: petition on the actual website).

Then was proposed at the quite same moment in **July 2008**, the creation of a petition for **Elodie LAMBINET**, which has today **10.000 approbations** of persons, obtained on the field-work, in other words “ face to face “ with the persons interested in the Elodie story, and in order that the persons accepted to sign on spontaneously the petition, it had to meet of that petition approximately 50.000 persons! .

After a “ petition on web “ is created by mean of the link following in **January 2009**:

<http://www.mapetition.ch/forum-petitions/read.php?id=2590>

and we received different reactions until today.

At the beginning of **July 2009**, bill-sticks are printed and stiked in different sites in France, on public advertisements hoardings: they seem “to disturb”...? For who? Why ? Or for which reasons ?

Here is an exemplar of this bill, in the menu “ poster “ .

The obvious numerous problems of coordination since many years, the incompetences of someones and unwillingness of others which don't recognise their errors... do that situation drag on... and making grave damages!

So the time goes, and early or later the faults will have to be blamed,... may be in the velvet, may be in the hardly, but “rectified”!

The hope to let “the time going freely” and letting the situation rotten bodes no good and always the memory will survive whatever context...

Thanks for your attention,

Marc LAMBINET,
Father of Elodie
